* * * * * * * * * * * * * * *

NOTE: Ring-necked pheasants and Hungarian partridges shall be taken only with a bow and arrow or a shotgun fired from the shoulder; the shotgun shall be not larger than 10-gauge. Destroying evidence of sex of ring-necked pheasants is prohibited; while in transit, the head and feet of pheasants must remain attached.

No open season on Chukar partridge -- hunters are cautioned to watch for these birds which can be mistaken for Hungarian partridge.

Taking of or shooting at game birds on or from county, state or federal highways is prohibited in the area between the permanent fences or if unfenced, then within an area 40 feet from the center line of said highway.
